

Ubiquinol acetate (EnQ10)
Product Specifications

Purity (By HPLC) (Area %):	Not less than 95.0%.
Ubiquinol Acetate Content:	Not less than 95.0%, by HPLC (% w/w)
Identification by:	
¹ HNMR & ¹³ CNMR:	Should conform to the structure of the molecule
LCMS:	Should conform to the structure of the molecule.
Infrared Spectroscopy:	Should conform to the structure of the molecule.
Residue on Ignition (% w/w):	Not more than 0.50%.
Water Content by KF (% w/w):	Not more than 2.0%.
Ubiquinone:	Not more than 2.0%.
Other Impurities:	Not more than 2.0%.
Heavy metals:	Not more than 20ppm.
Product Form:	Powder
Appearance:	White to off white
Storage Temperature:	Ambient
